Dra. Lourdes Cabrera Gacriña
Technical Secretary of Research Ethic Committee (REC) Hospital Clínico San Carlos

CERTIFIES

That the Hospital Clínico San Carlos REC at its standing Committee meeting on February 17th 2021, has evaluated the proposal of the sponsor/researcher regarding the study:

Title: INTERNATIONAL COVID-19 CLINICAL EVALUATION REGISTRY: HOPE-2.

Internal Code: 21/128-E

Protocol: Version 1_10.02.2021

That in this study:

- The necessary requirements for the suitability of the protocol in relation to the objectives of the study are met and the foreseeable risks and inconveniences for the subject are justified.
- The informed consent process is acceptable (oral)
- The investigator's capacity and the available resources are adequate to carry out the study.
- The scope of the expected financial compensation does not interfere with the respect of ethical postulates.
- The ethical precepts formulated in the Declaration of Helsinki of the World Medical Association on ethical principles for medical research in human beings and in its subsequent reviews are complied with, as well as those required by the applicable legal regulations depending on the characteristics of the study.

For this reason, the Committee **reports favourably** on the implementation of the project by **Dr. Iván J. Núñez Gil** as Principal Investigator, in the Cardiology Service of the Hospital Clínico San Carlos.

What I sign for the record in Madrid, on February 17th, 2021
